

AIR HOSE

High Temp. Compressed Air Hose – Steel Braided

Application:

High pressure steel wire braided compressed air hose used for heavy duty mine and quarry applications where maximum safety is a requirement. High durability is one of the main features.

Tube:

Black synthetic oil mist and high temperature resistant rubber.

Reinforcement:

Two high strength steel wire reinforced.

Cover:

Blue EPDM, ozone and abrasion resistant.

Working Pressure:

90 bar, 1300psi.

Nominal Burst Pressure:

Safety factor 4:1
360 bar, 5200psi.

Temperature:

-40°F/+300°F (-40°C /+150°C) with peaks of 232°C (450°F)

Marking:

 PARAGON
