

PETROLEUM HOSE

Low Temp Fuel Discharge Hose

Application:

Fuel discharge hose suitable for diesel, gas and other petroleum products for extreme low temperature.

Tube:

Black, smooth, conductive, synthetic rubber, suitable for petroleum products with up to 50% aromatic.

Reinforcement:

High tensile textile plies and two helix wires embedded and antistatic wire.

Cover:

Blue, smooth conductive rubber, abrasion, oil, fuel, ozone and weather resistant.

Working Pressure:

300 PSI, 20 bar

Nominal Burst Pressure:

900 PSI, 60 bar

Temperature:

-65°F/+194°F (-54°C /+90°C)

Marking:

iPARAGON
